

# THE BEST *care* FOR BREAST *care*

INCLUDES ADVANCED SCREENINGS  
AND EARLY DETECTION

It's important to have the most sophisticated technology to detect breast cancer at its earliest stages. At The Hospital of Central Connecticut, we offer the most advanced digital mammography, along with ultrasound, breast specific gamma imaging, and MRI when needed.

This is just one part of our comprehensive breast program, which includes the most advanced treatment options available, close to home.

**To schedule a screening mammogram, please call:**

New Britain General campus  
100 Grand Street, New Britain  
(860) 224-5244

Women's Center of Southington  
55 Meriden Ave. Southington  
(860) 276-5299
