

We're Open

The most powerful Open MRI in the area is closer than you think—at the Bradley Memorial campus of The Hospital of Central Connecticut. **Patients like our open feel, so they don't get claustrophobic.** And the high power means you get the clearest scans possible from an Open MRI. We also make things easy—appointments within 24 hours, including evenings and Saturdays; and convenient, free parking. Ask your doctor about us, or call 860-276-5155. **Open. Powerful. Easy.**
