

Every special delivery is a home run.

This one was a triple play, too.

The birth of triplets is a thrill for everyone involved. But not every hospital has the capability of caring for expectant moms and their babies when multiples are involved.

At The Hospital of Central Connecticut, we have specialists on hand 24/7 for those babies and moms who need a little extra attention and expertise, as well as special care nurseries. That's why Christine and Louis Gagliardi of New Britain chose our hospital as the birthplace for their triplets, Ty, Cooper and Jordan. We delivered everything they were expecting. And more.

For a referral to one of our ob-gyns, please call 1-800-321-6244. For a free baby bib, visit www.thocc.org
