

SMOKE-FREE AIR. Everywhere.

**On November 1, 2009,
The Hospital of Central Connecticut
will go totally smoke free.**

**This means no smoking anywhere on hospital
property, including outside our buildings,
in our parking areas and garages, or
anywhere else on our property.**

**We are taking this step because we firmly
believe it is the right thing, and the healthiest
thing, for our patients, visitors, employees
and other members of the hospital family.**

**The Hospital of
Central Connecticut**

SMOKE-FREE AIR.

It's only fair.

Multiple studies have shown that second-hand smoke is harmful to non-smokers.

That's one reason why we are banning smoking anywhere on hospital property starting November 1, 2009. As of this date, there will be no smoking anywhere on hospital property, including outside our buildings, or in our parking areas. We believe this is the right thing, and the healthiest thing, for our patients, visitors, employees and other members of the hospital community.

We realize quitting smoking is not easy, and you may need some help. If you are an employee and would like to learn more about our smoking cessation programs, call us today at 224-5433. We also offer smoking cessation programs open to the public.

Please call 224-5433 for more information.
